ANVIL, EST. 1888; CONSOLIDATED
HERALD, 1901; OCT. 17, 1905.

QUALITY AGAINST QUALITY WE ARE NEVER UNDER-SOLD!

When you buy a 25c pound of coffee from your grocer, the brown berries appear no better at a glance than the 15c grade. But the difference is there. You know that. When you pay 50c a yard for pure linen instead of 15c for cotton goods which looks the same, experience has taught you what will happen to the cheaper fabrics after a few washings. So you know the difference is there, too.

And, when you pay \$4.00 for a pair of patent leather shoes that shine no more lustreously, that has no more dashing style than a \$2.50 pair, you know very good and well how much longer they will retain their good looks and reflect your good judgment in paying the difference.

NOW, MR. SHOPPER, that's just the way we want you to feel about SCHMITT & STEINHARDT. You know quite well that our VALUE-GIVING power is more pronounced than others owing to our large buying capacity. You know quite well that this store makes a practice of selling lower than other stores will. We're content with less profit. We're building for the future. Now then, when you seek merchandise that is DIFFERENTLY BETTER Schmitt & Steinhardt's is the place you're sure to find it.

Ladies' Ready-to-Wear Garments In the Most Effective Styles

In our women's garments there is a style and fit we know can't be bettered, and for service and entire satisfaction you cannot hope to obtain the equal elsewhere of what we offer you here. We want you to bear in mind that all garments we offer are the newest models, without the high prices others ask.

You Like Good Store Service

Every one does. Good store service is a feature here and a factor in the up-building of this business.

SPRING SUITS

of unquestioned high character. However, we do not make our appeal solely on the basis of good store service, for our clothing is known to rank as high as any ready-for-service clothing in America, and our value-giving power is more pronounced than most stores owing to our large buying capacity. Spring displays were never more inviting, and we ask particularly that you see the grand line of

How to Tell if your Hair is Diseased

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic. Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall "93" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "93" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c. and \$1.00. Sold only at our store - The Rexall Store. Willmann & Martin.

A Hard Road to Travel.

A drunken man, whom a friend was trying to bring to his home some miles away, was constantly crossing from one side of the road to the other, so his friend said to him: "Come on, Pat, come on; the road is long." "I know it is long," said Pat; "but it isn't the length of it, but the breadth of it that's killing me." - Le Fanu's "Irish Life."

Kicked By A Mad Horse.

Samuel Birch, of Beetown, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnica Salve cured it completely. Its the greatest healer of ulcers, burns, boils, eczema, scalds, cuts, corns, cold-sores, bruises and piles on earth. Try it. 25c at W. H. Windrow's.

Keeps Back Modernism.

"Tis mortmain—the dead hand—that keeps back modernism. So long as any institution possesses funds there never will be any lack of persons to administer them.—Israel Zangwill.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

The Real Hurt.

Pretense itself don't hurt. It's trying to live up to pretense that tears and grinds. It's when one must cross the street in nearly every other block to avoid the fellow with a presentable bill that digs and really hurts.

The liver loses its activity at times and needs help. Herbine is an effective liver stimulant. It also purifies the bowels, strengthens digestion and restores strength, vigor and cheerful spirits. Price 50c. Sold by W. H. Windrow.

Excellent Knife Hone.

A fairly good knife hone for household use can be made by oiling the end of the grain in a block of wood, cut the right shape, and rubbing emery powder into it.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Rasaca, Ga. "It is the best cough remedy on the market for coughs, colds and croup." For sale by all dealers.

Making Work Easy.

How many of you sisters ask our dear Lord to help you through the trials of the day when you get up in the morning? I do. Try this; it makes the work easy.—Tennessee Housewife.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

His Last Appearance.

A cannibal King met a Thespian In the wilds of Timbuctoo. He invited inside that actor man In the way that cannibals do.

"A capital roast," remarked a guest; "Don't you think so, your Majesty?" The King's reply was this ghastly jest: "He was good in parts," he said. —Boston Transcript.

Merely Cracks.

Rastus Othello: "W'y is stage jokes an' aigs alak?"

Rufus Romeo: "Don' 'no, douten it's caze bof hab to be 'cracked' to git at de meat'!"

R. O.: "Naw, dat haint it. Neither one improves wid age'!"

Oh! there was a young gentlemen named Gid

Who, quite punctual, to the show always did

Take out his own best girl.—

But his head went awlirl When she said: "Get another, oh, you Kid'!"

Expert Information.

"There is plenty of room at the top", quoted the retired dramatist to an aspiring young actor.

"How long since you fell off'?" innocently asked the youth!

In Hondo there is a fair young lady Who with her beau likes to walk lanes shady;

But if she too long promenades—

Ah! be warned, all ye fair young maids—

She will become, at last, quite old maidly!

Heraldings.

Being an actor is no playing affair.

He is a benefactor who can make men laugh!

"Acting on the square" is never bad acting!

The make-up is sometimes an actress' strongest part!

No, Susie, the stage villian is never so bad as he acts!

Most of the nuts cracked on the stage are merely chestnuts!

The stage peach that carries too long becomes a lemon!

"He fell in love with his wife" and then he fell a victim to her millinery bills.

But for the illusions and the delusions of it there wouldn't be much reality to the stage!

No, Johnny, one does not always need a stage setting to make a holy show of himself!

Although an actress wishes to be understood she never tries to make herself plain!

The man who first said that "figures don't lie" had never seen the figures of some actresses!

Old bach says that a big chest measurement is no evidence that an actress has a big heart!

Miss Fortyyears says the stage lover may be all right in his place but he is never ardent enough to suit her!

No, Johnny, that actress flame of yours is not as sweet as you think she is because she likes chocolate drops. Take a drop to that!

The end man says that the best rabbit foot in the pocket is the price of the railroad fare back home, for without it he may have to foot it!

Old Hasbeen says that the philosopher who says that the way to be happy is to make others happy may be correct, but that when he says it costs nothing he gives evidence that he never tried making an actress happy!

The Auditorium Herald management extends its thanks to those who have accorded it their advertising patronage during the season just closing, and hopes to again greet its patrons at the beginning of the next show season. Au revoir, but not Good Bye!

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. **Public Park.**

Since the P. E. O.'s took upon themselves the improvement of Public Park their net receipts have been as follows: From Ice-cream Supper, \$19.00, Luncheon, \$13.80, and from Tag Day, \$37.25, a total of \$70.06. Their disbursements have been as follows: \$15.00 for electric light in center of park, \$35.00 for pipes and hydrants, and \$1.50 for raking the park, a total of \$51.50, which leaves a balance of \$18.56 of the park fund in the P. E. O. treasury. Besides this, there is on deposit at Heyen & Co.'s \$6.80, which is what remained of the \$14.50 (derived from the sale of the Cottolene cakes) after purchasing 75 feet of hose at a cost of \$7.70. The \$18.56 in the P. E. O. treasury and the \$6.80 on deposit at Heyen & Co.'s, will be used for water rent for the park during the summer months.

Public Park now has an electric light, pipes, hydrants and a 75-foot hose, placed by the P. E. O. Sisterhood, a reel for the hose and a lawn swing, donated by Schmitt & Steinhardt, trees, nearly all of which are growing nicely, planted by the residents around the park, and benches and turn-styles—not a bad showing for one year's work—and the P. E. O. Sisterhood is due most of the credit for this very material improvement.

**A Surprise Wedding.**

One of the prettiest weddings of the season was solemnized at the home of the bride's parents, Mr. and Mrs. Herman Woehler, at Seguin Monday afternoon, April 17th, at 3 o'clock, when they gave in marriage their daughter, Antonio, to Mr. A. J. Willman of Hondo, a former resident of Seguin, Rev. J. Jowarski officiating.

When the strains of the wedding march were heard the bridal party entered. First came the bride and groom followed by Mr. H. C. Willman and Miss Hulda Woehler, Mr. Fritz Martin and Miss Martha Bippert, Mr. Eddie Willmann and Miss Meta Troell, and Mr. E. L. Anderson.

The home was beautifully decorated for the occasion.

Mr. Willmann is a son of Mr. and Mrs. Otto Willmann of Seguin. He is a member of the druggist and jewelry firm of Willmann & Martin, who conduct an up-to-date drug and jewelry store here. The happy couple received many handsome and valuable presents. An elaborate supper was served and the cutting of the bride's cake caused an abundance of merriment.

The happy couple left in the evening on a honeymoon trip to eastern points. The bride's traveling gown was of a beautiful tan suiting.

They will make their home in Hondo where a beautiful cottage awaits their home-coming. May happiness and prosperity be with them are the best wishes of their numerous friends. XX

The Boy Scouts have received their uniforms and now present quite a military appearance. Their Military Director, Walter Roth, is putting them through frequent military movements and will soon have them well trained in the manual of arms.

A light rain Saturday was followed by some very cool weather the first of the week, but it turned warmer and rained a light rain Wednesday night and a much heavier rain came on Thursday night. Judge Haas' gauge registers a precipitation in all of 1.77 inches. It was much more in some sections of the county and some hail was reported.

**Had Seven Gallons Left.**

Messrs Leachmann & Edelin, Grafton, W. Va., had been selling a paint, which they thought well of; and this had occurred.

They had sold a customer 18 gallons of it to paint his house. A few years later, they sold the same man Devoe lead-and-zinc the same number of gallons to paint the same house. He had 7 gallons left.

The point of the tale is: 11 gallons Devoe paints an 18 gallon house.

Of course, that isn't all.

Why does 11 gallons Devoe go as far as 18 gallons of other paint? Because it is all paint, all true, no sham, and full measure.

But that isn't all. Devoe lasts longer. No, no; you haven't got to wait ten years to find that out. Ten thousand people know it. They think a heap of Devoe. There's no difficulty in showing our townspeople what to expect of Devoe \$10 will paint a \$15 house; and the paint'll last twice as long.

**Philathea Class.**

The Philathea Class met Tuesday, April 18, with Miss Dot Johnson. The meeting was opened with a song, followed by sentence prayers.

The name of Miss Minnie Monkhouse was added to the roll, and the sum of \$28.15 was reported in treasury.

Bro. Darby then led the class in the discussion of the lesson subject: "Our Connectionalism", after which music and a reading from Mrs. Manor were enjoyed.

The hostess served delicious refreshments, consisting of ambrosia and cake, with a boutonniere of pansies and maiden hair fern as favors.

The next meeting will be held at the home of Mrs. T. C. Barnes, with Miss Willie Fly as hostess. Tuesday, May 2nd. Respond to Roll call with a scripture passage relating to Missions.

**Notice, Catholic Ladies.**

There will be a meeting of the ladies of the Catholic church at the church Sunday directly after Mass and you are expected to be present. Important business to be discussed.

The Gilmor Brown Company gave three creditable performances at the Auditorium last Friday and Saturday. While Mr. Brown's rendition of Shakespeare was not what might be expected of an Irving or a Jefferson or even what it might have been with a better stage setting, it was, nevertheless, a treat to those of us who have never had the advantage of seeing the plays under more advantageous circumstances.

Hondo, Texas, April 21, 1911

We have rented this space for the purpose of writing you a note each week, the object of which will be apparent later.

They will not be long, for the reason that space will not permit, and we feel sure that you will not be so discourteous as to not read them. People invariably read notes addressed to them.

Yours truly,  
W. H. WINDROW.

## The Texas Horse

The Texas horse, as a utility animal, excels those of any other state in the Union. He has plowed our fields, fought our battles, and is the most faithful of animal kind. Among all the animals he stands first in war, first in peace and first in the hearts of the people.

1910 VALUE PER HEAD \$30.

The horse has contributed more toward the progress of the country than any other animal and our philanthropists, as civilizers, must all take off their hats to this dumb brute. During the past quarter of a century he has given away more than half his occupations to the cause of science and scientific discoveries and inventors are now operating in his remaining territory, but he has more than held his own in value and he is today the unit of power by which all his competitors must measure potential energy. He must not only compete with the inventive genius of man, but the mule—his progeny—has wrested from him some of his most valuable occupations. No animal ever met with such strenuous and untiring competition and while press agents have been predicting his elimination he has become a prime factor in the high cost of living. He came out of the war worth \$29.40 and has steadily increased in value until today he is worth \$30.

He has carried the pack of the pioneer, pulled the stagecoach in early days, herded the cattle on the plains and while bringing forward the civilization of the country has lifted himself from a broncho to a thoroughbred. He pulls for Texas stronger than any other animal.

According to the census reports of the Federal department of agriculture, dated Jan. 1, 1910, we had 1,365,000 head of horses, and the latest estimate given a value per head of \$30, making a total value of \$39,520,000 for all horses of all ages. This is an increase of 100,000 in number, and \$5,000,000 in value during the past year.

The soil and climate of Texas is particularly adapted to horse raising and no country on the globe can equal us in economy and quality of production.

A resolution proposing to amend the Constitution of the State of Texas, by amending Article 16, Section 20, thereof by striking out and repealing said section, and substituting in lieu thereof a new Section 20, prohibiting the manufacture for purposes of sale, barter or exchange, and the sale, barter and exchange of intoxicating liquors, on and after the second Tuesday in January, A. D. 1912, within this State, except for medicinal, scientific and sacramental purposes, and providing that the Legislature of the State of Texas shall, at noon on the second Tuesday in January, A. D. 1912, by authority of this section, meet in session in the city of Austin, and pass efficient laws to enforce this section; providing, further, that this section shall not prevent any session of the Legislature from passing any law to enforce the same; and, providing, further, that all laws in force when this amendment is adopted, providing penalties or forfeitures in relation to the manufacture, sale or transportation of intoxicating liquors, shall remain in full force and effect until modified or repealed; fixing the time for the election for the adoption or rejection of said proposed constitutional amendment, directing a proclamation in therefor and making certain provisions for said election and the ballots thereof, and method of voting; prescribing certain duties for the Governor of this State, and making an appropriation to defray the expenses of said election.

## TO READ COIN INSCRIPTIONS

Numismatist Shows Test That Seldom Fails to Reveal Dates on Worn Coins.

Lying on the table in front of a numismatist was an old copper coin. It had experienced hard usage. "Can you read the date and the inscription?" inquired the collector. The visitor inspected the specimen, but, although he had the aid of a magnifying glass, he confessed that the words and figures were illegible. "Let me assist you," the collector remarked. Going to the kitchen range he thrust an ordinary coal shovel into the fire and permitted it to remain there until red hot. Withdrawing it, he dropped the coin on the utensil, and it speedily became as red hot as the shovel itself. Immediately the date, 1794, shone brightly in glowing figures on the obverse side of the coin, and similar treatment revealed the words United States of America—one cent—on the reverse. This test, according to the numismatist, seldom fails with any coin, even when the inscriptions have been worn so perfectly smooth that they are invisible to the naked eye.

It mends the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgic twinges, it has done and is doing a wonderful work. Many chronic victims of these diseases have found to their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment. It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons: It heals sores and wounds quickly, and leaves no disfiguring scars. **Mystery of the Violets**

There are three daughters in the Jerviss family, all attractive young women of a going-out age.

Emily, the eldest, is a tall, dashing brunette. Eleanor, the second, is petite and dark. Daisy, the debutante, is a short blond young person with freckles and the engaging manners of a cherubic small boy. It is a standing grievance among this otherwise care-free trio that their various admirers often fail to attach a distinguishing first name to their offerings and notes.

"It was all very well," Daisy spluttered wrathfully to a girl caller, "to contend that Emily is the only Miss Jerviss. To be sure, Emily could, properly and technically speaking, claim the honor of that title, but when it comes to claiming every box of candy that reaches the house thus addressed it is quite another matter."

"It's horribly embarrassing," she complained, "for us not to know which one of us has to thank the man whose card accompanies the gift, because we all three go out with the same men occasionally, and it's hard to know which one he desires to favor."

"This time," she added, with a giggle, "is the worst yet!" She uncovered a square purple box and displayed to her girl caller a great bunch of violets. She buried her nose in them ecstatically.

"They are absolutely the first of the season," she said, "and they came two hours ago addressed to Miss Jerviss and without a trace of a card. Of course, we all three claim them, because Eleanor is going to the theater with Billy Seltsman tonight and Emily is going to a little informal dance with Henry Corsairs and I myself am expecting Livingston Orr to call. A mere call doesn't necessitate flowers, naturally, but Livingston has been rather—er—devoted of late. And every man harbors the conviction that the recipient of his favors is going to know whom to thank by some subtle romantic instinct."

"No, indeed," she went on, in answer to a question from the caller, "we haven't come to any decision yet. We had a council and after much discussion we decided to be foxy, so each one of us invented good excuses to call up the man she is going out with this evening to see if he wouldn't get into a conversation and give himself away."

"Emily called Henry to say that she couldn't possibly be ready until half an hour later than the time he was to come, but he only thanked her gratefully for letting him know, and she had to hang up the receiver without enlightenment."

"Then Eleanor called up Billy to remind him that she didn't know what play they were going to see. She told him that she wanted to look up the criticisms beforehand. Equally hopeless!"

"And so I rang up Livingston to ask him to stop off on his way here tonight and bring me a certain book from the Kays." He agreed pleasantly and remarked that he had been thinking about me all day.

"Ah ha!" said I to myself. "Here is where little Daisy corners the violet market." Then, "How am I going to be convinced of that?" I inquired archly of Livingston, thinking he would speak of his floral offering as a proof. But he only remonstrated, in a hurt voice, that he hoped I wouldn't need any convincing argument on that score. So I hung up the receiver baffled. What he said didn't sound promising, although, of course, he may have sent the violets and will not mention them until I do."

She returned the bouquet to its box with a sigh. "Emily will probably get them after all," she said, ruefully, "because she has the legal claim. Then if they really did come from Nell's young man or mine he will be mortally offended when he notices that we haven't worn them."

"But, you see—" She was interrupted by the entrance of the housemaid with a card.

"There's a boy just come, Miss Daisy," said the maid, "to say that the box from the florist's that was delivered this afternoon was addressed wrong. He says it was for Mrs. Jerviss instead of Miss Jerviss, and here's the card that was to go with it."

Daisy accepted the card with a blank face. But as she read a broad grin grew upon her countenance.

"They are from Uncle Jack," she said. "He always sends mother flowers when he passes through town."

The grin developed into a laugh. "The joke is on Emily," gasped Daisy after an interval, "for she has gone five miles to the dressmaker's to hurry up her new lavender gown so that she can wear it with those violets to-night!"

**Preserving Autumn Leaves.**  
 A lady writes that she has preserved autumn leaves in the following manner: Take a book with rather a heavy cover when you go to gather the leaves and place them in it smoothly. The next day or so give them a coat of varnish such as is used for photographs. I have made very pretty centerpieces by cutting a piece of cardboard any shape desired and arranging the leaves as a lace or embroidered centerpiece. For a pretty dish for the middle I cut off carrots about an inch and a half in length and put them in a pretty glass dish with a little water and a few pieces of charcoal. They grow and look like ferns.

**IN ARKANSAS.**

The physician had taken his patient's pulse and temperature, and proceeded to ask the usual questions.

"It—er—seems," said he, regarding the unfortunate with scientific interest, "that the attacks of fever and the chills appear on alternate days. Do you think—is it your opinion—that they have, so to speak, decreased in violence, if I may use that word?"

The patient smiled feebly. "Doc," said he, "on fever days my head's so hot I can't think, and on ague days I shake so I can't hold an opinion."—Lippincott's.

**Why He Rejected.**  
 "I am going to ask mother to eat her next Sunday dinner with us."

"Bully!"

"You approve?"

"Sure! It will save us at least a liver."

"Save?"

"Certainly. You said you were going to have her eat her next Sunday dinner with us. Now if we were to eat our dinner with her, it would be she who would save."

**Training.**  
 "I think I'll be an explorer and take up mountain climbing," said the sardonic person."

"Have you any training for that sort of thing?"

"I think so. I work on the thirty-fifth story of a building whose elevator gets out of order."

**Unjust.**  
 "You are a hoodoo!"

"How so?"

"You wished me luck when I was on my way to propose to Miss Caus-tique."

"Well?"

"She rejected me!"

"Then why do you accuse me of being a hoodoo?"

**A Handsome Woman**

Every woman may not be handsome, but every woman should keep with care the good points nature has given her. No woman need have sallow skin, dull eye, blotchy complexion, who pays proper attention to her health. Where constipation, liver derangements, blood impurities and other irregularities exist, good complexion, bright eyes and sprightly movements cannot exist. Internal derangements reveal themselves sooner or later on the surface. Headache, dark rings around the eyes, sallow skin, a constant tired feeling—mean that the liver and digestive organs are needing help and correction. Chamberlain's Stomach and Liver Tablets give this necessary help. They work in nature's own way. They do not merely flush the bowels but tone up the liver and stomach to fulfill their proper functions. So mild and gentle do they act that one hardly realizes that they have taken medicine. Chamberlain's Tablets can be relied upon to relieve biliousness, indigestion, constipation and dizziness. Sold everywhere. Price 25 cents.

**ABOUT ADVERTISING—NO. 8**

**The Cellar Hole and the Sewer Hole**  
 By Herbert Kaufman.

A coal cart stopped before an office building in Washington and the driver dismounted, removed the cover from a manhole, ran out his chute, and proceeded to empty the load. An old negro strolled over and stood watching him. Suddenly the black man glanced down and immediately burst into a fit of uncontrollable laughter, which continued for several minutes. The cart driver looked at him in amusement. "Say, Uncle," he asked, "do you always laugh when you see coal going into a cellar?" The negro spluttered around for a few moments and then holding his hands to his aching sides managed to say, "No, sah, but I jest busts when I sees it goin' down a sewer."

The advertiser who displays lack of judgment in selecting the newspapers which carry his copy often confuses the sewer and the cellar.

All the money that is put into newspapers isn't taken out again by any means. The fact that all papers possess a certain physical likeness doesn't by any means signify a similarity in character, and it's character in a newspaper that brings returns. The editor who conducts a journalistic sewer finds a different class of readers than the publisher who respects himself enough to respect his readers.

What goes into a newspaper largely determines the class of homes into which the newspaper goes. An irresponsible, scandal-mongering, muck-raking sheet is logically not supported by the buying classes of people. It may be perused by thousands of readers, but such readers are seldom purchasers of advertised goods.

It's the clean-cut, steady, normal-minded citizens who form the bone and sinew and muscle of the community. It's the sane, self-respecting, dependable newspaper that enters their homes and it's the home sale that indicates the strength of an advertising medium.

No clean-minded father of a family wishes to have his wife and children brought in contact with the most maudlin and banal phases of life. He defends them from the sensational editor and the unpleasant advertiser. He subscribes to a newspaper which he does not fear to leave about the house.

Therefore, the respectable newspaper can always be counted upon to produce more sales than one which may even own a larger circulation but whose distribution is in ten editions among unprofitable citizens.

You can no more expect to sell goods to people who haven't money than you can hope to pluck oysters from bushes.

It isn't the number of readers reached but the number of readers whose purses can be reached that constitutes the value of circulation. It's one thing to arouse their attention, but it's a far different thing to get their money. The mind may be willing, but the pocketbook is weak.

If you had the choice of a thousand acres of desert land or a hundred acres of oasis, you'd select the fertile spot, realizing that the larger tract had less value because it would be less productive.

Just so the advertiser who really understands how he is spending his money does not measure by bulk alone. He counts productivity first. He takes care that he is not putting his money into a sewer.
